Special Guest Speaker

Anne Meredith Kyle, BSN, RN

Show-Me Response Program State Coordinator
Medical Reserve Corps State Coordinator
State Emergency Management Agency (SEMA)

Purpose of this seminar:

To bring together invited public health, emergency management, law enforcement, key volunteers and other stakeholders from the county for training and information sharing to support local Strategic National Stockpile (SNS) planning efforts.

Break-out Sessions:

Logistics:

- What is a "POD" & how to set one up
- What is anticipated people power to run a POD
- How to control traffic flow and parking
- Security Measures for POD site & SNS
- Differing Roles at a POD site to support medical countermeasures

Medical:

- Types of possible agents and causes
- Medical response to corresponding Agents/Pandemic/Toxins
- Triageing symptomatic vs asymptomatic community members
- Labeling and paperwork of SNS dispensed
- When head of household dispensing is appropriate

Community Impact:

- What information is needed about each POD site capabilities & importance of MOU's
- How will being a POD site impact daily functions at your location
- When do you choose to close your doors to daily functions or when is a forced shut down ordered by county/city officials
- How do we serve our special needs populations?
- What is priority prophylaxis & why is it important?
